*Bob knows a few spells, (he can quickly see how long it takes to cast, how difficult it is, how much MP it costs, etc)*

*but he wants more spells of course! See next page*

*Page numbers here refer to the official GoldenSword Magic Manual – paperback hardcopy available on Amazon. PDF versions match page numbers, but there are just a lot of pages so we recommend the hardcopy*

## Spell Learning Planning/Wish List

*Bob is planning ahead to what spells he wants to learn, next time he gets more XP*

*If he gets 20 xp, he wants to learn Detect Magic & Detect Spell.*

*However, if he only has xp to spend, he may just settle for Locate Heat*

*Planning ahead is very helpful, not only for bob to keep track of his decisions, but because the GM might want to plan for Bob finding the right spell books or mages to learn from!*
